Animation

## About Me

I am designer from Ukraine. I work in the IT sector since 2005 and behind my back more than 100 completed projects.

During my work I studied the principles of work of the sites and took part in development of the sites "from scratch". This experience gave me understanding of a usability.

Now I can offer you original and qualitative design which will be convenient to users of your site and will create fine reputation for your business.
